## GENERAL

---

Senior Demolition Consultant and Operations Director with over 35 years of experience in construction, demolition, and remediation. Widely respected in the industry for delivering complex, high-risk projects across the UK and Europe for both public and private sector clients. Brings deep expertise in asset appraisal, demolition strategy, remediation planning, and support for land redevelopment and regeneration. Combines strategic oversight with hands-on technical knowledge, offering tailored consultancy from early-stage feasibility and risk assessments through to procurement, contractor management, and on-site supervision. Known for a practical, client-focused approach and a proven ability to manage safety, compliance, and delivery on even the most challenging sites.
